High Performance at Low Cost

Global InfoVision

Global InfoVision is a leading provider of various Information Technology solutions and services. Since 1998, we are actively involved in Software Development Services and IT/BPO solutions such as Litigation Support and Medical Billing Services. Our business model is built around focusing on building long-term relationships and thereby delivering quality services and solutions. Our services manifest in maximum return on investment, improved productivity, increased revenue, and enhanced customer satisfaction.

QUALITY CONVERGES WITH INTEGRITY

Global InfoVision is your reliable partner for Cost-effective Medical Billing solutions.

Hundreds of millions of dollars is lost annually due to medical billing errors such in Coding, Claims, and lack of required follow-up.

Global InfoVision can overcome these obstacles and show you how to maximize your revenues. We can re-gain the revenue and subsequently profit your practice by utilizing electronic claims and personalized reimbursement strategies that are unique and best in the industry. To Facilitate excellent customer service and support, **Global InfoVision** uses the local services of it's 10 year old parent company in Columbus, Ohio.

Using a proven analytical approach and incorporating industry best practices, **Global InfoVision** works with its clients to improve their existing business process, enhance process efficiency, reduce cycle times and provide real time information. Our services will allow our clients to improve their quality of services, access flexible and scalable technology solutions, increase revenues, reduce costs and focus on their core strengths.

Benefits... What you get?

Revenue Enhancement:

Streamlined process and continuous follow-ups that eventually lead to very few denials and short cycle times.

Stability:

Global InfoVision offers 100 % satisfaction to it's clientele in giving long term realistic results and serving them with full energy and zeal.

Healthcare Expertise:

Global InfoVision possesses a highly experienced team in the field of Medical coding, Medical Billing and Software applications who strictly adhere to the compliance process and deliver best results.

Technology:

Global InfoVision offers clients the state-of-the-art technology and real-time service from our facility that makes clients at reach 24/7.

Data Flow & Security:

The scanned documents (super bills) are transferred in an encrypted format and uploaded to the FTP servers. They are accessed by back office through Virtual Private Network (VPN), where it is de-crypted and delegated, thereby providing maximum security to the data received from clients.

Confidentiality & Compliance:

The entire staff of **Global InfoVision** adhere to strict confidentiality of all data and related topics. All the processes, solutions, and products offered by **Global InfoVision** are HIPPA compliant.

Quality... Our Primary Commitment

Global InfoVision ensures compliance to legal procedures and compliance to client's quality expectations. HIPAA guidelines and globally acceptable data protection principles are strictly followed.
